PROFILE SUMMARY

- React.js and Next.js Developer with experience in building **responsive and high-performance web applications**. Skilled in **React.js, Next.js, and Node.js**, with a focus on enhancing **user engagement, optimizing performance, and delivering scalable full-stack solutions**. Experienced in developing **e-commerce and service-based websites** with modern web technologies.

SKILLS

Programming Languages: HTML5 | CSS3 | JavaScript | TypeScript | DOM

Libraries: React Js | Redux-Toolkit | Ant Design | MUI | jQuery | TanStack Query | Sequelize

Frameworks: Next Js | Node Js | Express Js | Nest Js | Bootstrap | Tailwind CSS

Databases: MySQL | MongoDB

API Architecture: RESTful APIs | GraphQL

Tools: Visual Studio Code | Visual Studio

EDUCATION

Ahmedabad Institute of Technology

(2019-2023)

B.E. | Computer Engineering

CGPA: 8.37

EXPERIENCE

Full Stack Developer | WEDOWEBAPPS PVT LTD

(May'25 – Present)

- Worked as a full-stack developer specializing in **React.js, Next.js, Node.js, and Magento**. Developed and maintained a variety of **e-commerce and service-based websites**, delivering responsive, high-performance, and user-friendly web applications.
- Experienced in integrating modern front-end technologies with scalable back-end solutions, optimizing website functionality, and ensuring seamless user experiences.

React Js Developer | CodeFencers Private Limited

(Jul'24 – May'25)

- Developed client-focused products and restaurant websites for clients in the USA and India, utilizing React.js, Redux Toolkit, Axios, and React Router to deliver responsive and dynamic web applications.
- Led projects as a Senior React Developer, driving front-end architecture, implementing responsive designs, and ensuring code quality through best practices and performance optimization.
- Conducted thorough design testing to ensure functionality and user experience, achieving code reduction and optimization to enhance performance and maintainability.

Full Stack Developer | Ncoresoft Technologies

(Jan'23 – Jul'24)

- Acquired expertise in technologies and applied it effectively to projects and tasks.
- Completed a 4-month internship focusing on .NET Core and AngularJS, subsequently learned ReactJS. And applied skills in a project utilizing ReactJS and .NET Core.
- Mentored and trained junior developers over the past 2-3 months, enhancing team skills and improving project efficiency.

PROJECTS

Skill Space: Contributed significantly to the backend development using Node.js, designing and implementing APIs for core application functionality. Developed authentication, service and sub-service management, booking workflows, role-based access, wallet management, and transaction handling. Implemented Stripe payment integration with escrow-based

payment functionality to securely manage transactions between users and service providers. Developed and maintained the admin panel using Next.js, including role-based management and administrative workflows. Integrated third-party APIs for document verification and translation services. Designed and integrated RESTful APIs to support seamless communication between the mobile application, admin panel, and backend services. Worked across the application stack to troubleshoot issues, optimize functionality, and ensure reliable end-to-end workflows.

Kolleris: Developed and maintained an e-commerce website using Next.js and Magento, contributing to both frontend and backend functionality. Developed key customer-facing modules, including Dashboard, My Account, My Orders, and Checkout sections. Integrated Viva Payments as a secure payment gateway to support online transactions. Improved website performance, responsiveness, and overall user experience through optimization and efficient implementation. Worked with Magento APIs and integrated frontend functionality with backend e-commerce services. Implemented and explored new Next.js features and capabilities to improve application functionality and development efficiency.

Foodasso: Developed a restaurant website with functionality similar to Petpooja, including features for menu management, ordering, and customer engagement. Implemented modules for billing, operations, inventory management, and reporting. Enabled order types including dine-in, delivery, and pickup, along with options for advance ordering and payments.

React CRM: Designed and developed CRM modules including Contacts, Leads, Opportunities, Accounts, Tasks, Users, Tenants, and Roles. Integrated the Import, Export, and Download file options into each module's listing screen.

Social Integra: Researched and developed API integrations for LinkedIn, Facebook, Instagram, and Twitter. Enabling the multi-platform post sharing capabilities.

Construction Management: Developed and managed modules such as Site Inspection, Employee Project, Employee Task, Equipment, Budget Category, Purchase Order, and Sales Invoice. Implemented roles and permissions for Employee, Builder, and Host Admin within the project.
